# 1. Login Process

## Public User

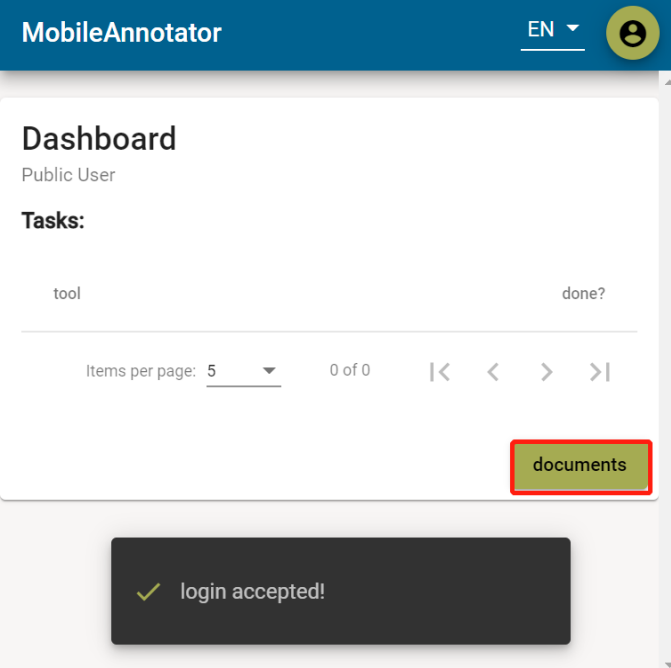

E.g. Login as a guest.

- Step 1. Users without an account can access the annotator with press “guest login”.

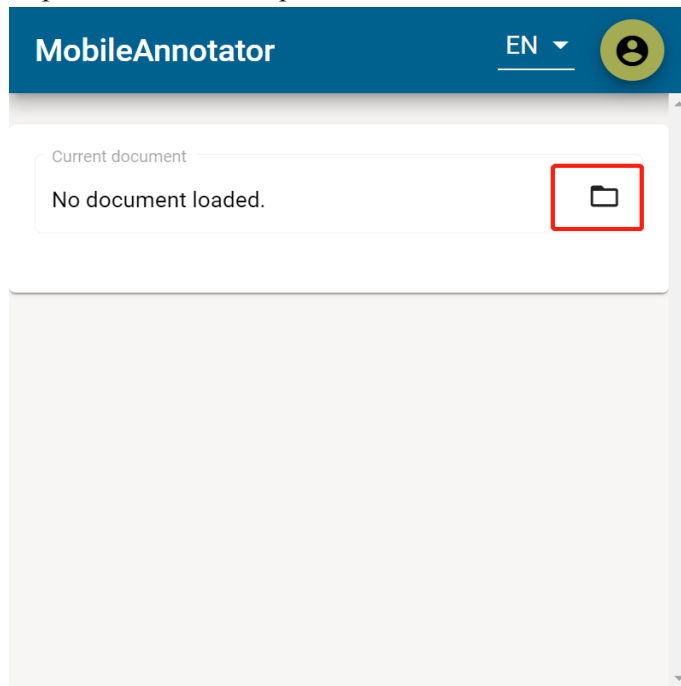

The screenshot shows the MobileAnnotator sign-in interface. At the top is a blue header with the text "MobileAnnotator", a language dropdown set to "EN", and a user profile icon. Below the header is a white "sign in" form. The form contains two input fields: "username \*" and "password \*", both with red asterisks indicating required fields. At the bottom of the form are two buttons: a grey "login" button and a green "guest login" button. The "guest login" button is highlighted with a red rectangular border.

- Step 2. At the dashboard page left click the “Document” button.

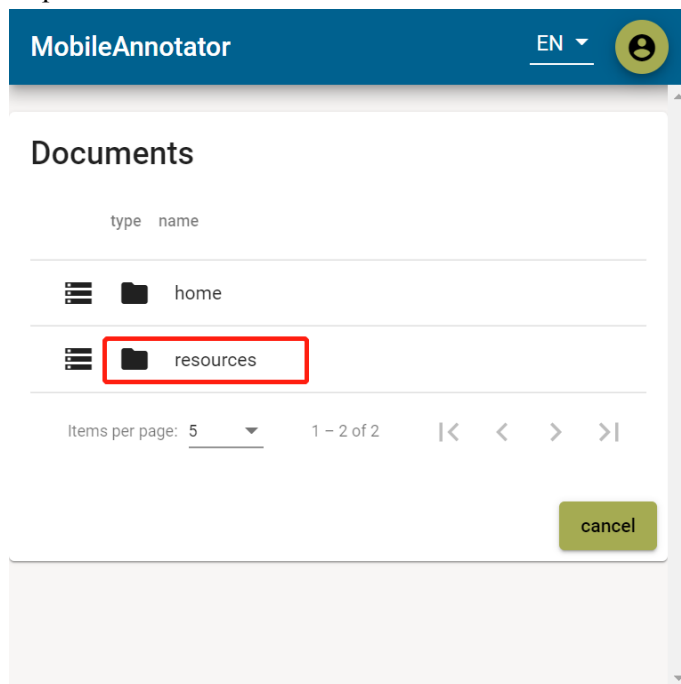

The screenshot shows the MobileAnnotator dashboard. The top blue header is identical to the previous screen. Below the header, the page title is "Dashboard" with "Public User" underneath. A section titled "Tasks:" contains a table with two columns: "tool" and "done?". Below the table is a pagination bar showing "Items per page: 5" with a dropdown arrow, "0 of 0", and navigation arrows. A green "documents" button is highlighted with a red rectangular border. At the bottom of the dashboard is a dark grey notification box with a green checkmark icon and the text "login accepted!".

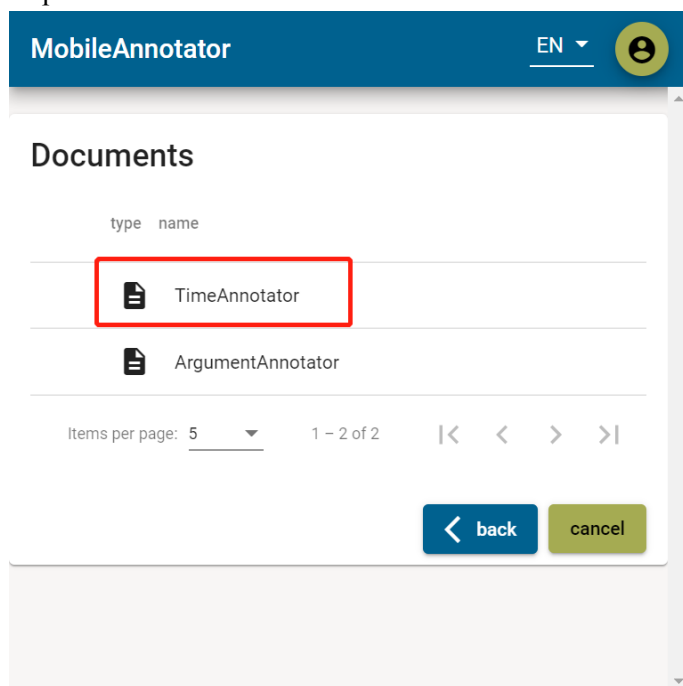

- Step 3 Left click “file” pattern.

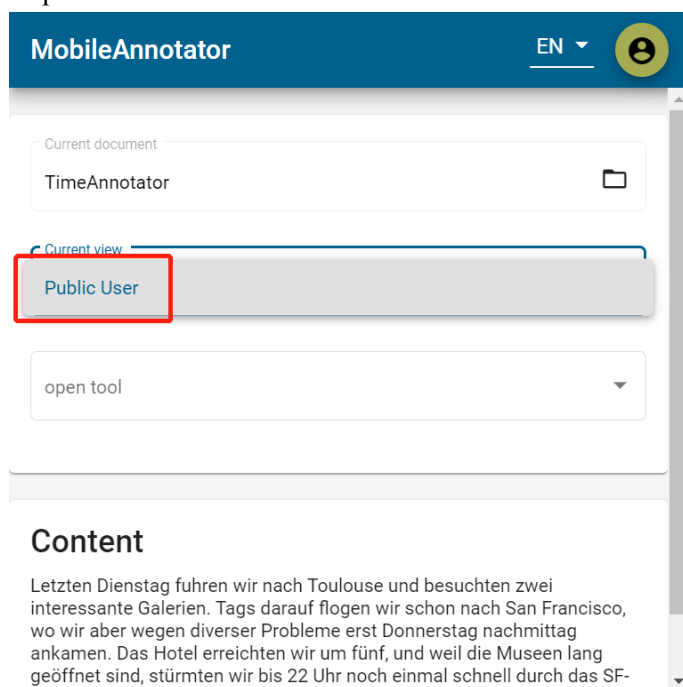

- Step 4. Select “resources”.

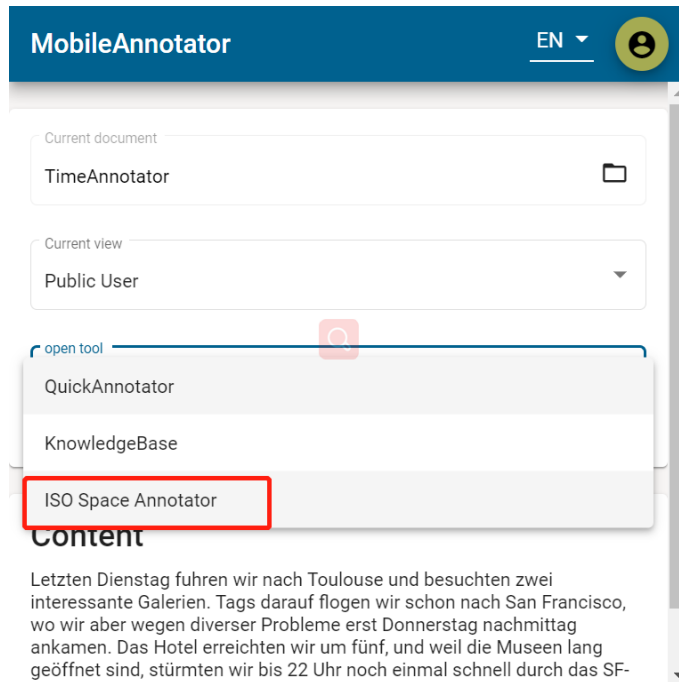

- Step 5. Select “TimeAnnotator”.

- Step 6. Select “Public User”.

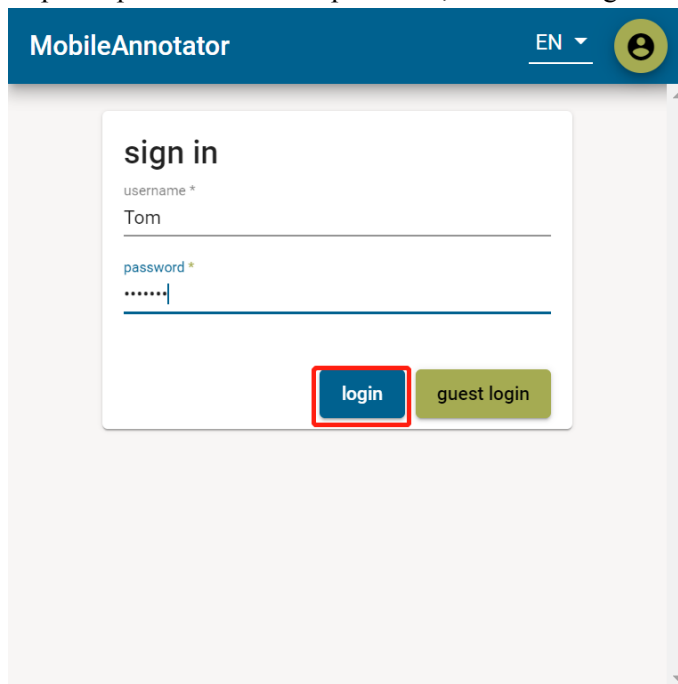

- Step 7. Select “ISO Space Annotator”.

## User with an Account

E.g. Login with an account.

- Step 1. Input username and password, left click “login”.

MobileAnnotator EN

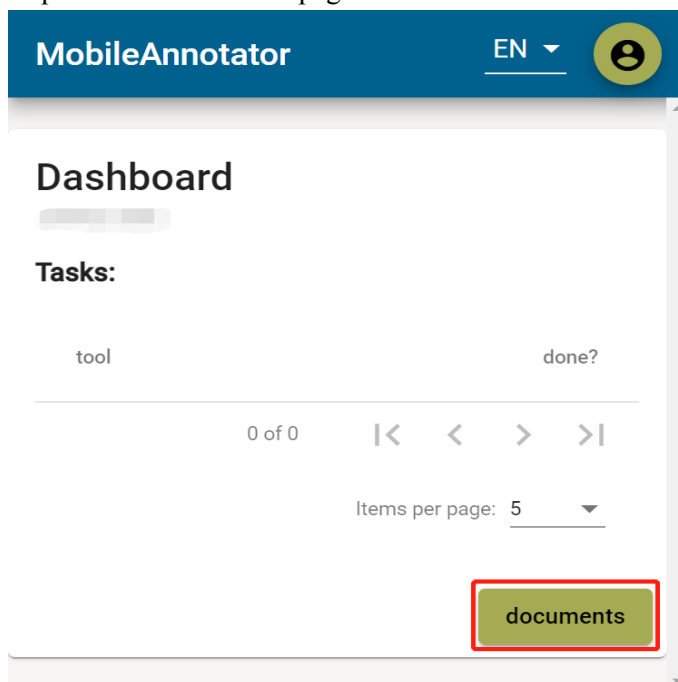

**sign in**

username \*  
Tom

password \*  
.....

**login** guest login

- Step 2. At the dashboard page left click the “Document” button.

MobileAnnotator EN

**Dashboard**

**Tasks:**

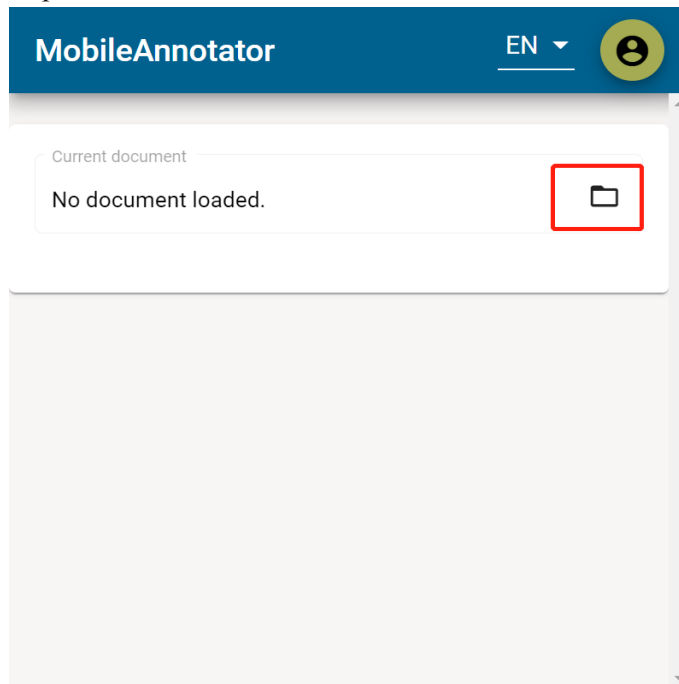

tool	done?
------	-------

0 of 0 |< < > >|

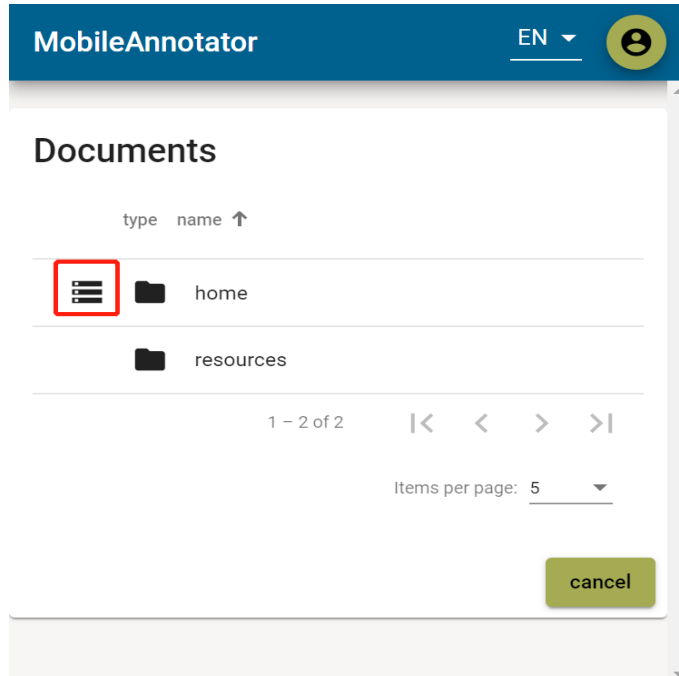

Items per page: 5

**documents**

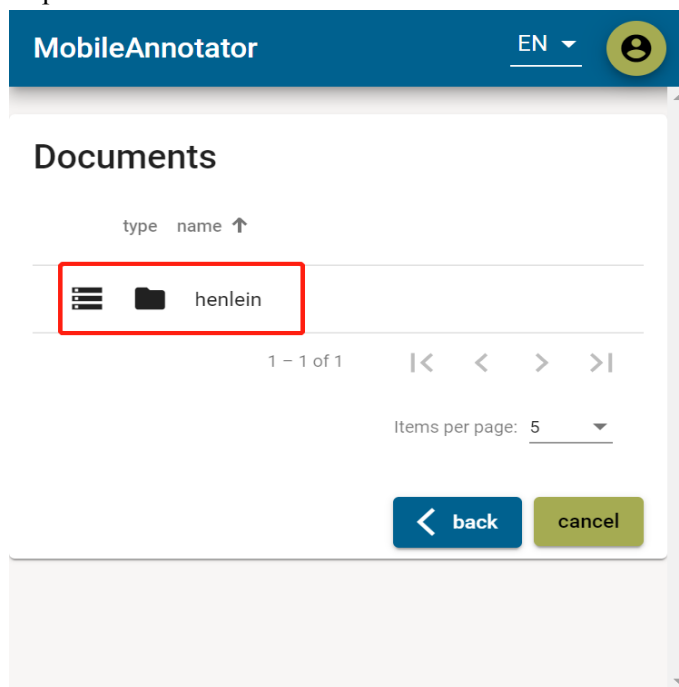

- Step 3. Left click the “file” icon.

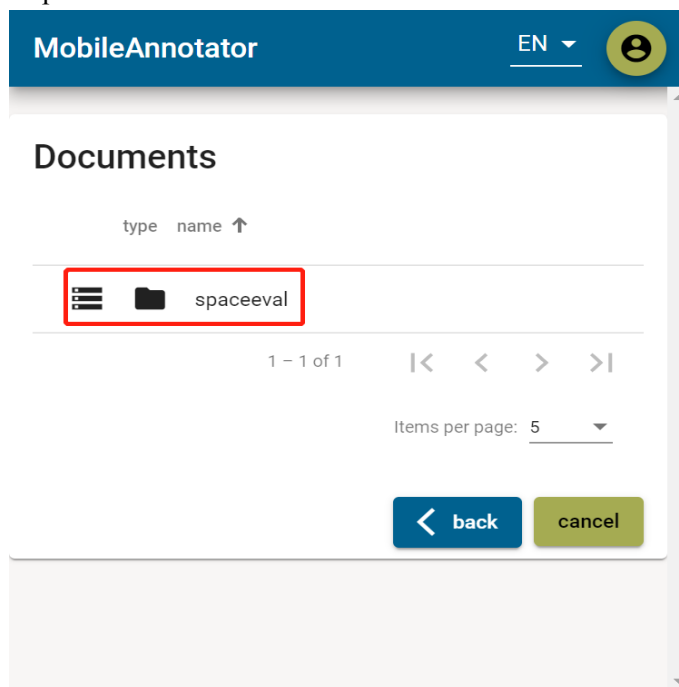

- Step 4. Left click the “list” icon.

- Step 5. Left click the “list” icon.

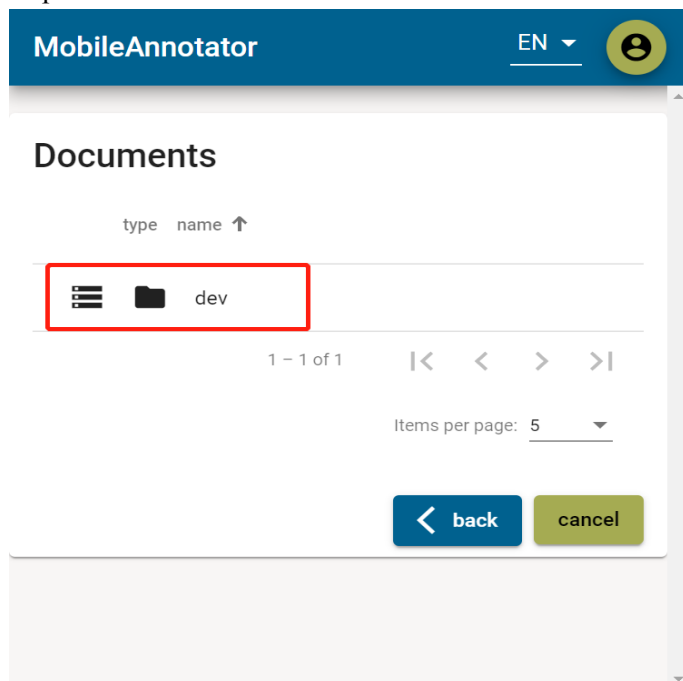

- Step 6. Left click the “list” icon.

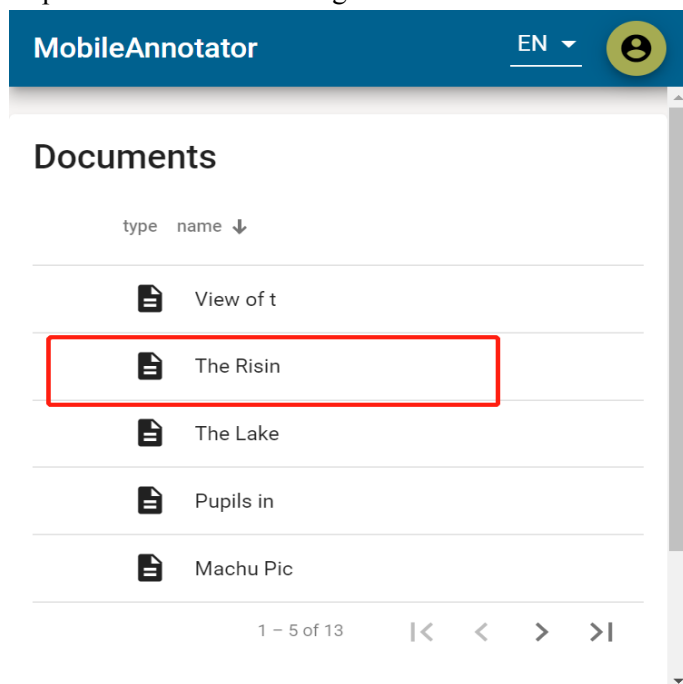

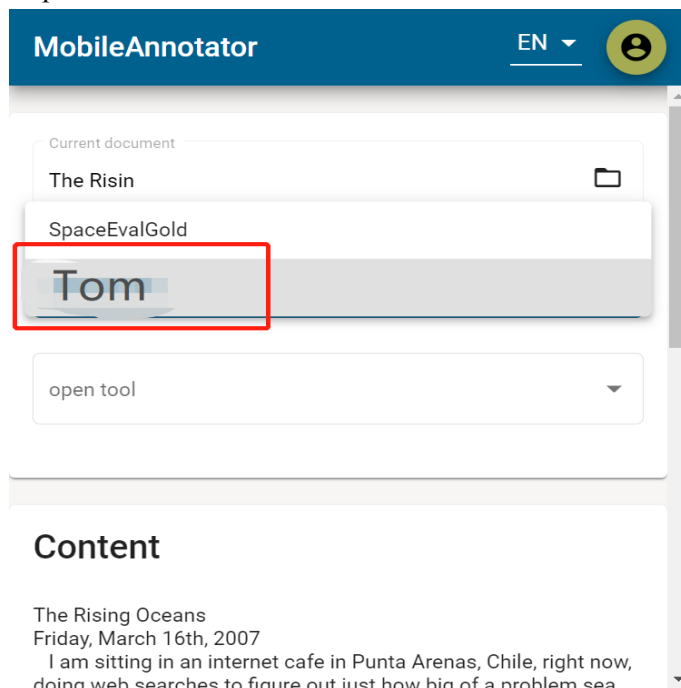

- Step 7. Left click the “list” icon.

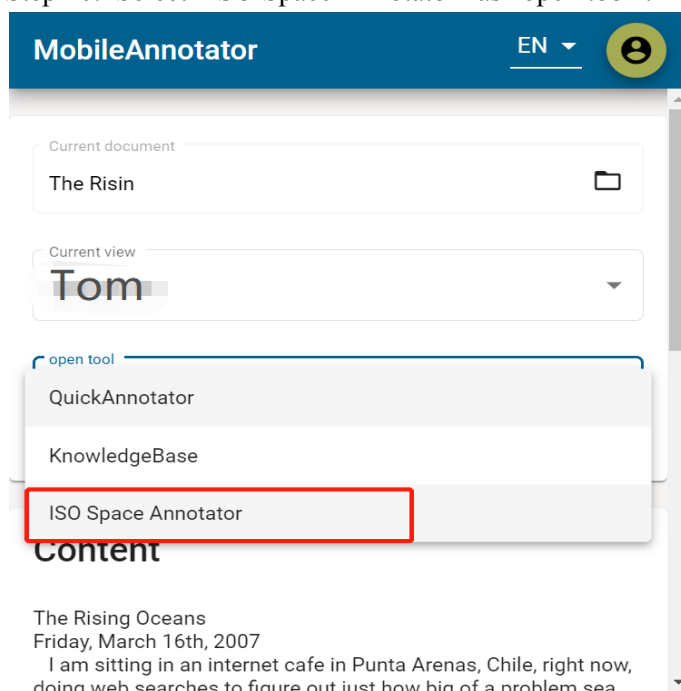

- Step 8. Select the annotating document.

- Step 9. Select user name as “current view”.

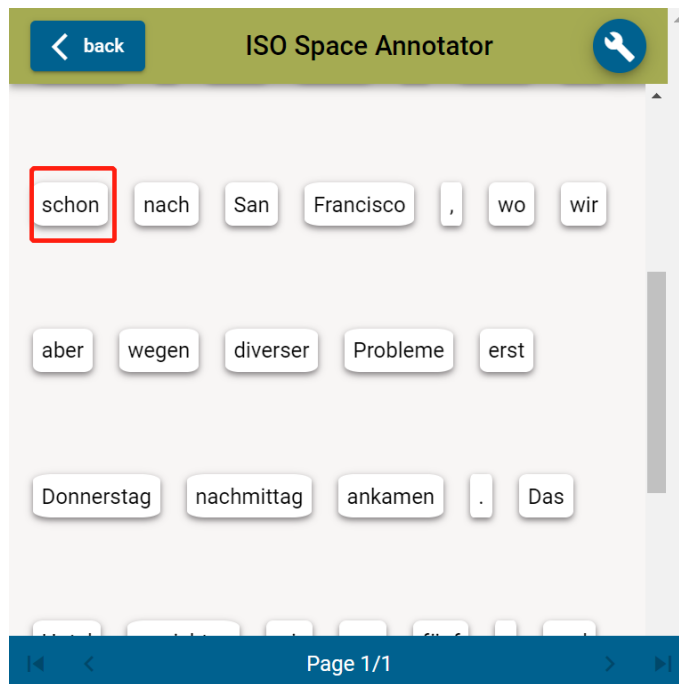

- Step 10. Select “ISO Space Annotator” as “open tool”.

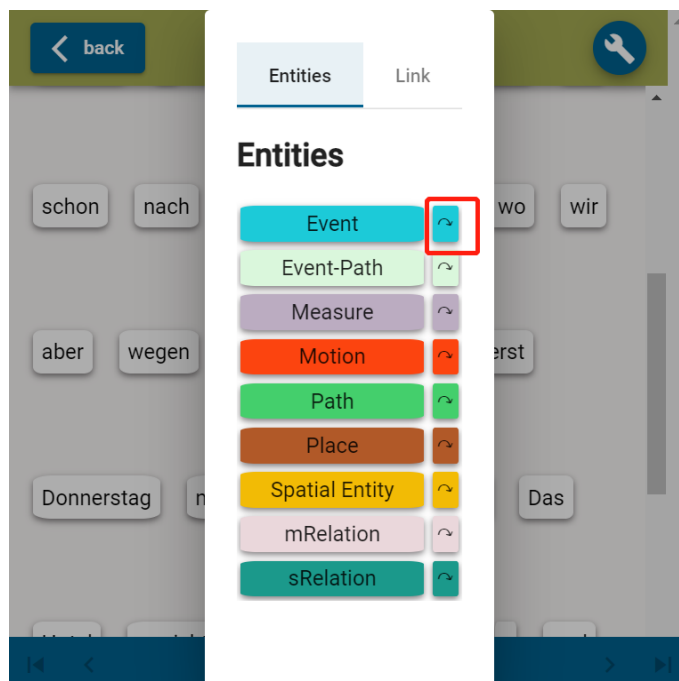

## 2. Add Entities

E.g. add an event entity after “schon”

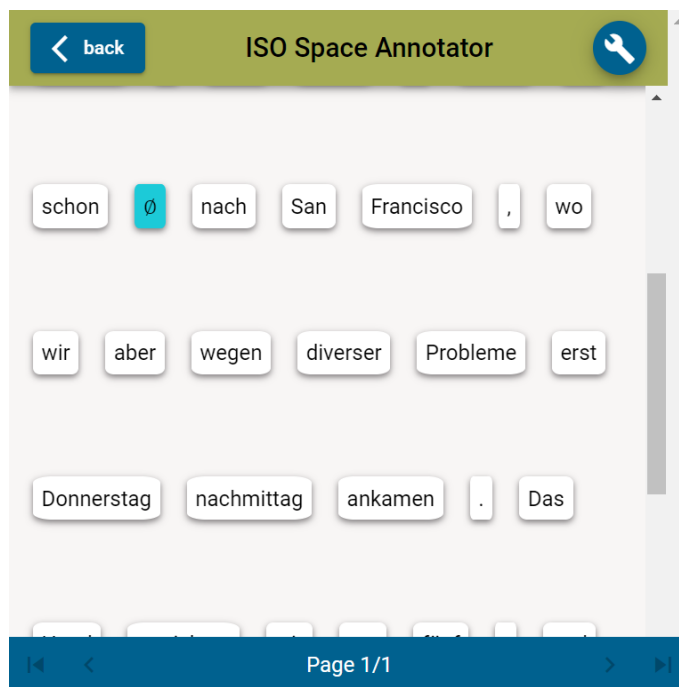

- Step 1. Left click “schon”.

- Step 2 Select the arrow after “Event”.

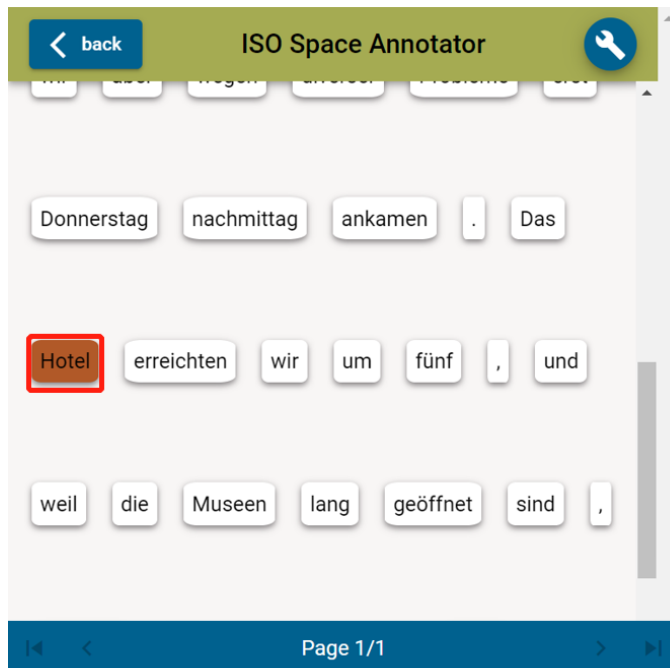

- The result is shown below.

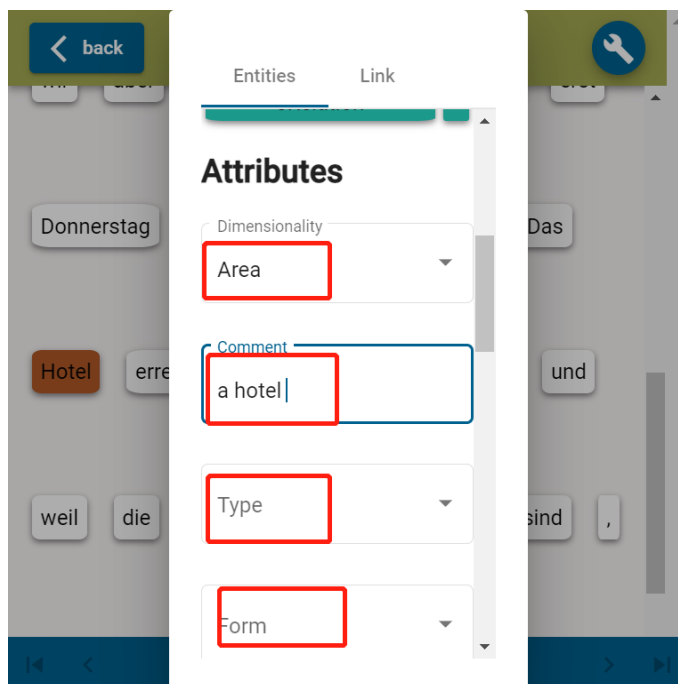

### 3. Add Attributes

E.g. Add attributes for “Hotel”.

- Step 1. Left click “Hotel”.

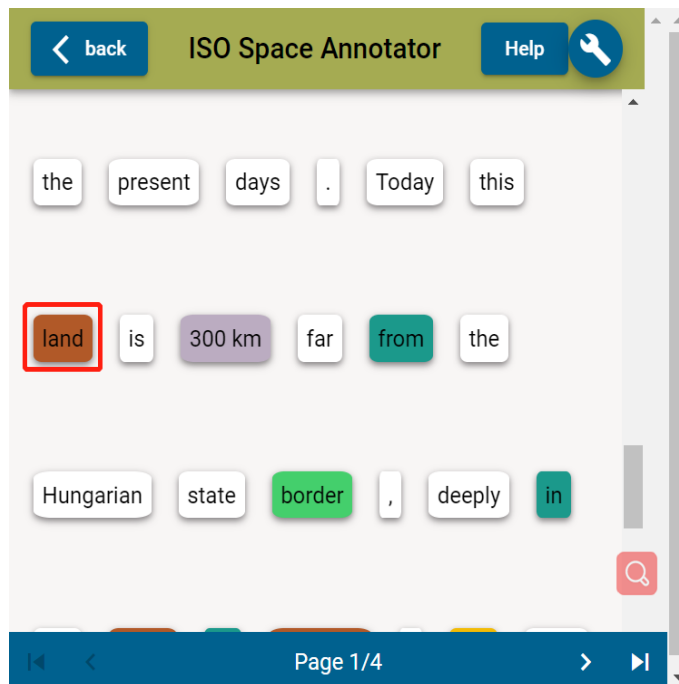

- Step 2. Scroll down, select “Area” as Dimensionality and input “a hotel” as Comment .
- The result is shown below.

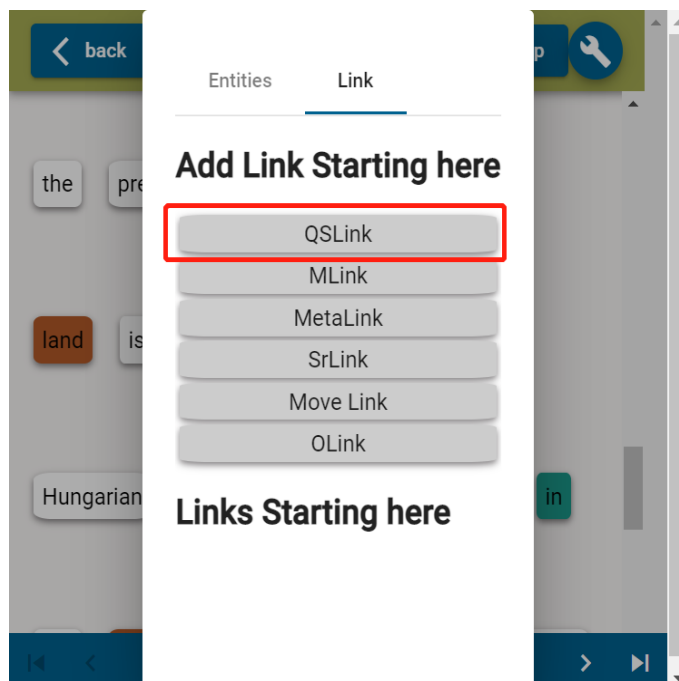

## 4. Add a Link

E.g. Add a QSLink between “land” and “state”.

- Step 1. Left click the start of the link “land”.

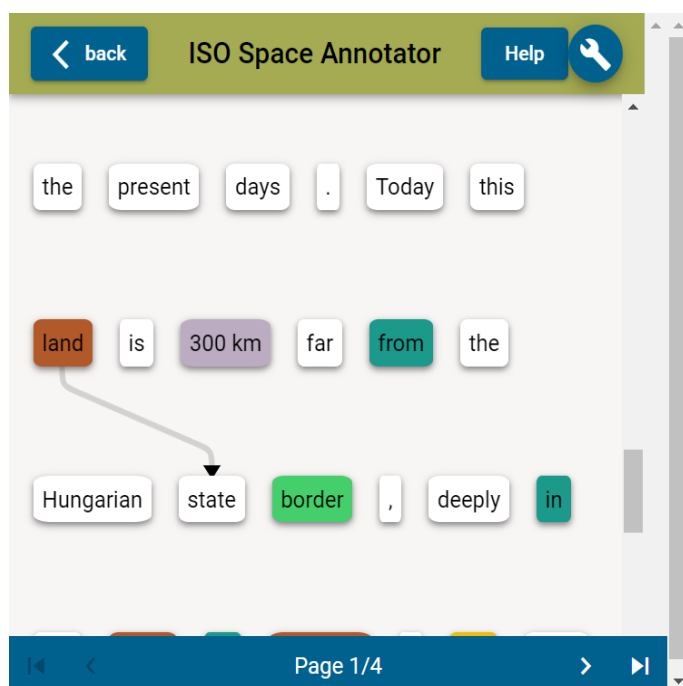

- Step 2. Select “QSLink”.

- Step 3. Select the End for QSLink.

- The result is shown below.

## Add a cross-page link

E.g. Add a cross-page MetaLink between “you” and “you”.

- Step 1. Left click the start of the link “you”.

- Step 2. Select “MetaLink”.

- Step 3. Left click the “next page” button.

- Step 4. Select the End for MetaLink.
- The result is shown below.

## 5. Delete a Link

E.g. Delete the QSLink between “Letzten” and “Dienstag”.

- Step 1. Left click “Delete Link”.

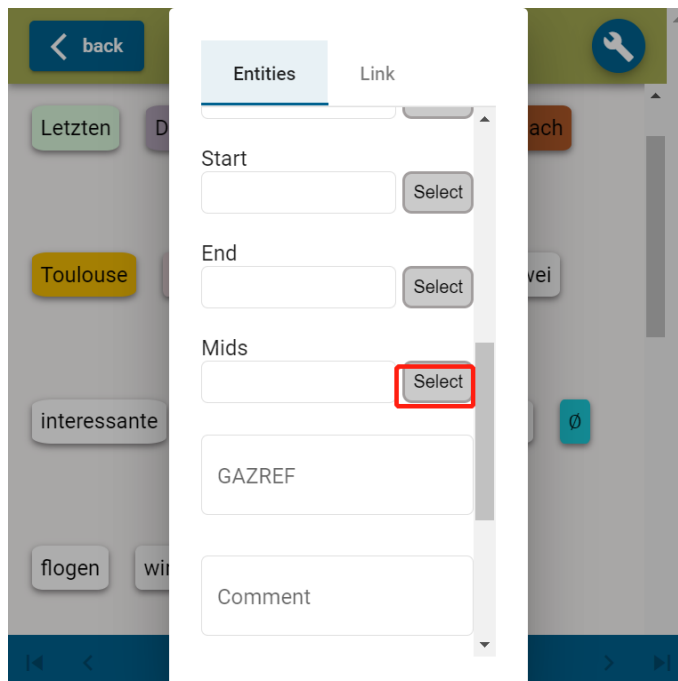

## 6. Multi Selection

E.g. Select “nach” and “San” as Mids for “Letzten”.

- Step 1. Left click “Letzten”.

- Step 2. Scroll down and find the “Mids” attribute.

- Step 3. Select “nach” and “San” separately.

- The result is shown below.

## 7. Delete a Selection

E.g. Delete the start attribute “nach”.

- Step 1. Left click the cross at the end of “nach”.

## 8. Create a Multi Token

E.g. Combine “15”, “-”, “20”

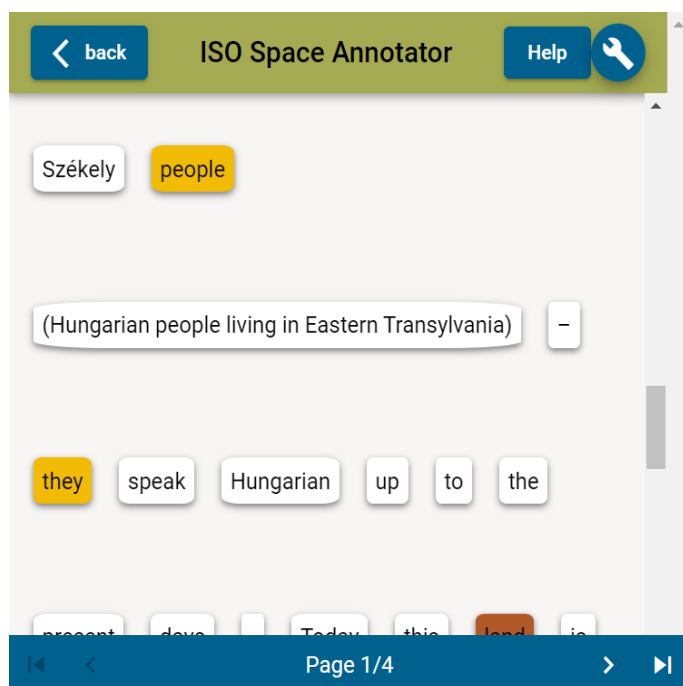

- Step 1. Long left click or left click with Ctrl the start of the multi token “(” .

- Step2 Long left click the end of the multi token “)” .

- The result is shown below.

## 9. Split a Multi Token

E.g. Split the multi token “(Hungarian people living in Eastern Transylvania)”

- Step 1. Long left click the multi token “(Hungarian people living in Eastern Transylvania)” .

- The result is shown below.

## 10. Filter View

E.g. Show all the “Motion” attributes.

- Step 1. Left click the “wrench” button at the top right corner.

- Step 2. Select filter.

- Step 3. Select “Motion”.

- Step 4. Select “Accept”.

- The result is shown below.

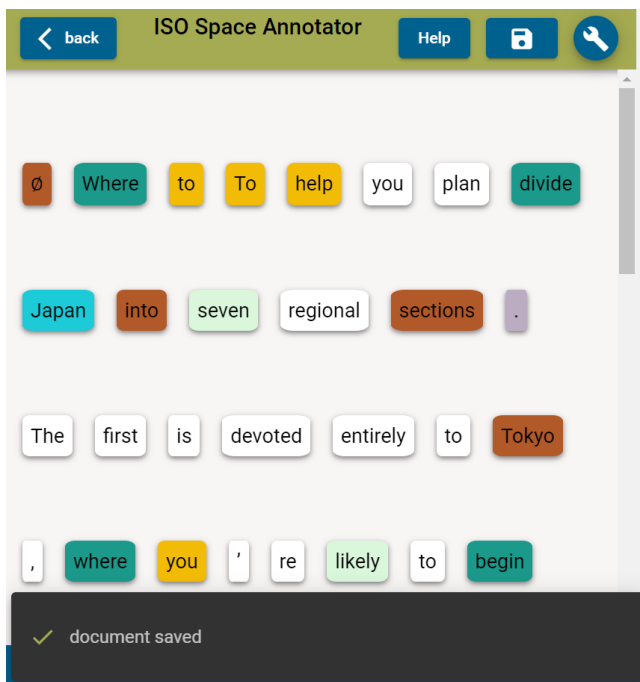

## 11. Save a Document

E.g. Save the document after editing.

- Step 1. Left click the “save” button at the top right corner.

- The result is shown below.

## 12. Undo a Description on the Token

E.g. Undo the description of "Tokyo" and change it from "event" to "place".

- The original description.

- Step 1. Left click the “left arrow” button in the toolbar below

- The result is shown below.

## Undo the Undefined Description

E.g. Undo the undefined description.

The undefined description.

- Step 1. Left click the “left arrow” button in the toolbar below

- The result is shown below, “Japan” disappeared.

- Step 2. Left click the “save” button at the top right corner.

- Step 3. Left click the “refresh” button of the browser.
- The result is shown below.
